

# WINANCE

## LOTTERY SYSTEM

Blockchain Lottery Made Easy

Hassle-Free Lottery: NFT-Ticketing technology auto-tracks your win and automatically sends the prize into your wallet.

# WHAT IS WINANCE

*More Winning Chances, Higher Prize Amount*

Winance is a Binance Smart Chain token project that uses blockchain technology to provide you with a fairer, hassle-free and higher prize payout Lottery game. We want you to be the Jackpot winner!

Through Winance, we achieve true FAIRNESS by carrying out the random draw using the acclaimed VRF technology (Chainlink Verifiable Random Numbers).

## HOW TO PLAY:

You pick 4 different numbers between 0 and 50 plus an additional “Winball” number between 0 and 26 and then just wait for the next “Draw” event.

During the draw, all the winning numbers are randomly picked by our smart contract using VRF technology (provably FAIR and verifiable RANDOMNESS). When your numbers match with the winning numbers, you win the prize.

## WINANCE PAYOUT STRUCTURE

Match 0 ball and the Winball - *Wins 2x the price of the ticket*

Match 1 ball and the Winball - *Wins 2.5x the price of the ticket*

Match 2 balls and NO Winball - *Wins 3x the price of the ticket*

Match 2 balls and the Winball - *Wins 6x the price of the ticket*

Match 3 balls and NO Winball - *Wins 8x the price of the ticket*

Match 3 balls and the Winball - *Wins 5% of the current Jackpot*

Match 4 balls and NO Winball - *Wins 10% of the current Jackpot*

Match 4 balls and the Winball - *Wins 100% of the current Jackpot*

## SUPERB ADVANTAGES OF WINANCE OVER TRADITIONAL LOTTERY

- All lottery matching and tracking are done automatically by our Winance smart contract. You do NOT need to manually check and match your lottery ticket. If you win, your wallet will automatically receive the prize. Absolutely hassle-free and 100% error-proof.
- Automated with blockchain technology, lower maintenance cost. All the saved cost enables higher prize amounts to lottery participants.
- FAST growing size of the prize pool from Winance token's all buy and sell transaction taxes. The taxes are being added into the Jackpot prize pool continuously.
- TRUE Randomness by blockchain technology, Chainlink Verifiable Random Numbers (VRF)
- Fast drawing + efficient auto payout means a faster restart of the next draw. Unlike the regular lottery, Winance can be set to "Draw" even a few times a day
- The winner receives the full prize, no more deducting taxes

## REAL DEMAND OF THE WINANCE TOKEN (\$WIN)

Only with real demand, the market capital of \$WIN will increase. Here are some key features, which will utilize \$WIN within Winance ecosystem and hence increases its demand and value:

### IMPLEMENTED:

Lottery participants need to hold a certain amount of \$WIN to be able to buy lottery tickets

### IMPLEMENTING VERY SOON:

- Need to burn a certain amount of \$WIN to buy any ticket
- Lottery in Winance currency

### UPCOMING IN THE ROADMAP:

Need to pay a certain amount of \$WIN to host your own mini-lottery (on-demand) for fundraising events, fun and etc.

For other token projects which want to host “Big” lotteries in their native token, they need to pay/lock a certain amount of \$WIN (this also helps their project token demand because it takes their tokens out of circulation, a win-win collaboration)

## TOKENOMICS

### 12% Buy Tax

- 6% goes into Lottery Jackpot prize pool
- 5% Winance utility expansion and Marketing
- 1% Liquidity Pool

### 12% Sell Tax

- 6% goes into Lottery Jackpot prize pool
- 5% Winance utility expansion and Marketing
- 1% Liquidity Pool

**Total Supply:** 1 trillion

**Initial Liquidity:** 5 BNB

**Max Wallet:** 3.9%

# ROADMAP

## Phase 1:

- Post fair launch marketing
- Engaging Twitter influencers for marketing
- Engaging YouTube influencers for marketing
- Engaging Telegram group owners for marketing
- Continuous lottery draws to benefit investors/holders
- Grow Community to 1000 holders
- Market Capital goal of \$500k
- Accepting investors/holders to organize their own mini lotteries on our website

## Phase 2:

- Grow to 5000 holders
- Market Capital goal of \$2 million
- CoinGecko listing
- CoinMarketCap listing
- Global marketing (marketing phase 2.0) of Winance lottery ecosystem
- Integrating Winance token (\$WIN) as the currency of the prize pool
- Making \$WIN as the core currency of the Winance ecosystem (instead of BNB)
- Accepting collaborations from other token projects to hold their lotteries using their native tokens

## Phase 3:

- Grow to 20,000 holders
- Market Capital goal of \$50 million
- Introduction of new Lottery variations within Winance ecosystem
- Marketing phase 3.0 for Winance
- Introduction of Roadmap 2.0 of Winance
- Major CEX listings (Gate.io, Houbi, Kucoin, FTX, Binance, Coinbase)

## **WE'RE GRATEFUL THAT YOU'VE READ UNTIL THE END**

Thank you for taking the time to read till the very end of our white paper.

We try our very best to give you a detailed overview of what we want to achieve through Winance project. We hope you do have a much better understanding by investing your time in going through our white paper.

Let's recap a few crucial points we wish you bring with you:

- Winance is a blockchain lottery jackpot made EASY for you
- Our NFT-ticket technology auto-tracks YOUR WIN and auto-send prize into your wallet: HASSLE-FREE lottery
- Strive to give you More Winning Chances, Higher Prize Amount
- Achieve true FAIRNESS: Random draw by the acclaimed VRF technology (Chainlink Verifiable Random Numbers)

*Blessing you with the best of luck and hoping you win the jackpot!*
